GROUP
Kegging & bottling plants

Your passion,
our skill.

Keg line HS6T, capacity 250 kph, regional craft brewer in Colorado

Keg washer/filler mod. 2T-SA

Co.Mac. has been manufacturing kegging and bottling plants for more than twenty years and has supplied complete lines to the biggest breweries all over the world. That's why our small plants are designed with the same high standards in spite of their affordable price, to offer microbreweries the quality their product deserves.
